Top 10 Reasons To Choose Roper Rehab Hospital

- 1.** Roper Rehabilitation Hospital is a hospital within a hospital. Other facilities located outside of a hospital must transport patients in emergencies. At RRH patients have immediate access to critical care doctors and intensive care units.
- 2.** We get patients home! 80% of our patients were discharged home compared to 78% nationally.
- 3.** The patient's doctor is able to visit their patient in the hospital.
- 4.** Roper Rehabilitation Hospital has a full kitchen and a "Real Life Room" with a car to practice functional skills in a therapeutic setting.
- 5.** The Rapid Response and Stroke Teams are readily available in an emergency.
- 6.** Dialysis is available at Roper and is scheduled to reduce interference with therapy.
- 7.** Recreational Therapy is available for patients to assist with community re-entry.
- 8.** Patient satisfaction surveys conducted by PRC rate Roper Rehab Hospital at the top 10% of hospitals nationally for providing excellent care. For 2007 RRH was awarded the Top Performer for overall quality of care.
- 9.** Dr. James Warmoth Medical Director for the unit has over thirty years of inpatient rehabilitation experience and is a CARF surveyor.
- 10.** Roper Rehab Hospital is the only CARF accredited inpatient rehab hospital in the Lowcountry. RRH is accredited as both a general rehab unit and a stroke specialty unit.
